Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Monday 03 May 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Wet and windy, with possible coastal gales.

Today:
Early cloud and rain across the west of the region will soon spread to all areas this morning and will continue through the afternoon. Rain often heavy, and bringing strong winds, with coastal gales possible. Feeling cold under the rain. Maximum temperature 11 deg C (52 deg F).

Tonight:
Most of the rain clearing east by the evening, but leaving behind frequent, often heavy, showers. Winds remaining strong throughout. Minimum temperature 1 deg C (34 deg F).

Tuesday:
Frequent showers continuing through Tuesday, perhaps merging into a longer period of rain across the south of the region by the evening. Maximum temperature 11 deg C (52 deg F).

Outlook for Wednesday to Friday:
Wednesday, Thursday and Friday mostly a mixture of sunny spells and showers, though thunderstorms are possible on Wednesday. Winds easing through the period but temperatures cold to very cold.
